Lori Ryerkkerk
CEO of Celanese Corporation

Lori J. Ryerkkerk is the Chief Executive Officer of Celanese Corporation, a Fortune 500 global chemical and specialty materials company based in Dallas, Texas. Celanese is a leader in the development and production of materials used in most major industrial and consumer applications. Ryerkkerk was named CEO in May 2019.

Ryerkkerk's expertise in the energy industry spans three-plus decades. She combines deep technical and commercial skills with a passion for the manufacturing business. Her unwavering focus on safety, environmental and social performance is the foundation on which she has overseen some of the most technically complex operations in the industry.

Previously, Ryerkkerk was the Executive Vice President of Global Manufacturing, the largest business in Shell Downstream Inc. She led a team of 30,000 employees and contractors at refineries and chemical sites worldwide.

Before joining Shell in 2010, she was Senior Vice President, Refining, Supply and Terminals at Hess Corporation, where she was responsible for two refineries, 21 terminals (and distribution network) and supply and trading. Prior to that, Ryerkkerk spent 24 years with ExxonMobil where she started her career as a process technologist at a refinery and took on a variety of operational and senior leadership roles around the globe.

Ryerkkerk is a graduate of Iowa State University, where she completed her Chemical Engineering degree. She actively supports a variety of organizations in her hometown of Beaumont, Texas.

Message from the President

As the President of the Society of Gynecologic Surgeons, I am excited to welcome you to the 47th Annual Scientific Meeting in Palm Springs, California from June 27 – 30. This first of its kind, hybrid meeting is based at the Westin Mission Hills Resort in the heart of the Coachella Valley. For those of us able to attend in person, it is likely the first inter-state travel we have done since the beginning of the COVID-19 pandemic. What a joy to finally be in the presence of our SGS friends and colleagues. For our members and guests who are attending virtually, we hope that this year's meeting will be just as fantastic as last year's, and we look forward to seeing you in-person at our 2022 meeting in San Antonio, Texas.

Dr. Megan Schimpf and the Scientific Program Committee have put together an outstanding program, with exceptional keynote speakers, diverse panel discussions, and a combination of podium presentations and videos that will bring the latest science in gynecologic surgery to you. While we hope that the vast majority of our attendees will be vaccinated, there is no doubt that the in-person component of this meeting will be unlike any previous meeting. The health and safety of our members and guests is paramount. Nonetheless, we hope that the collegial social events for which SGS is well known – modified as needed for these times – will make us all feel a little bit “normal” again. In this era of social distancing, I know we can all embrace the theme of this year's meeting, “Working Together: How Collaboration Enables Us to Better Help Our Patients.”

Through a combination of live and virtual presentations we are offering three timely postgraduate courses. On Sunday morning, June 27th Dr. Cara King will be leading “Fibroid Management: Broaden Your Armamentarium for Uterine Preservation,” and Drs. Annetta Madsen and Blair Washington will chair a course on “Anti-Racism: Dismantling Racism in Your Personal and Professional Spheres.” On the evening of Tuesday, June 29th Dr. Cecile Ferrando will be directing a virtual course on “Multidisciplinary Care Within Your Gynecologic Surgical Practice: How to Effectively (and easily) Incorporate Other Specialties.” In addition to these PG courses, the Social Media Committee, chaired by Dr. Amy Park, will be presenting a live workshop on Sunday afternoon entitled, “Harnessing the Power of Social Media in Gynecological Medicine,” and Sunday evening the Women's Council welcomes Lori Ryerkerk, CEO of Celanese Corporation, to speak about “Lessons in Leadership.”

It's been 15 months in the making, so we are excited to finally bring to you the inaugural Mark D. Walters Lectureship, and its namesake, Dr. Walters, Professor Emeritus of Ob-Gyn and Reproductive Biology at the Cleveland Clinic will be giving a lecture entitled, “Insights on Surgical Education: How Can I Help You Get Better.” Dr. Christine Heisler will speak to us about gender bias in her lecture entitled “Ready, Set, ACTION! Directions toward Gender Equity in Gynecologic Surgery.” To round things off, this year's TeLinde Lecture, “Cultivating Resilience: The Power in Connection & Collaboration” given by Janet Dombrowski, will enlighten us on how to build highly functioning teams, and the importance of aligning strategy, structure, and culture for optimal performance.

Our program chair, Dr. Schimpf, will moderate a panel on, “Perspectives on Race in GYN Surgery” which will feature various perspectives from Drs. Karolynn Echols, Erica Marsh, Gerard Taylor, and Olivia Trowers. Our second panel discussion will focus on the data behind “Novel GYN Office Procedures,” and the ways in which you can incorporate these new procedures in your practice. The panel will include Drs. Cecile Ferrando, Andrea Pezzella, Abbas Shobeiri, and Eric Sokol.

Our social events are going to be hot (both literally and figuratively)! They include two evening receptions and the Tuesday afternoon social activities, where participants can choose between the annual golf scramble tournament or mountain biking in the desert badlands of Palm Springs.

While we try to safely navigate through these challenging times, I hope that this hybrid meeting will be both educational and fun for all who attend. The ability to socially connect while advancing our knowledge of gynecologic surgery is what has always made SGS so special. This year may be different, but hopefully we will all get a little taste of that old flavor.

Sincerely,

Miles Murphy, MD
SGS President

Mission Statement

The mission of the Society of Gynecologic Surgeons is to promote excellence in gynecologic surgery through acquisition of knowledge and improvement of skills, advancement of basic and clinical research, and professional and public education.

SGS is a Society with a strong belief in mentorship. On the following pages we are pleased to recognize the mentors who have been honored by those whose careers they helped develop while also fostering the mission of SGS.

StimSite: Mitigating Ureter Injury Risk and Increasing Surgical Efficiency Using Electrical Stimulation

Dr. Huang will discuss the challenges that come with laparoscopic and robotic pelvic surgery along with current techniques and technologies used for ureter identification. The shortcomings of these will also be discussed, followed by an in-depth review of the newest technology on the market to help mitigate ureter injury risk and shorten time to identification called StimSite. Dr. McCoy will share firsthand experience with the technology that has led to rapid adoption of this simple to use device as part of his own standard practice.

CME Information

Program Chair: Megan Schimpf, MD

Target Audience: Gynecologic Surgeons

Program Goal: The goal of the annual scientific meeting is to provide member and non-member attendees with a forum for the latest and most innovative developments in gynecologic surgery. This will be accomplished through lecture, slide, video and poster presentations. Oral presentations are followed by a discussion and a question and answer session.

To Obtain Your CME: CME evaluations will be conducted electronically. You will receive an email within one week following the end of the SGS meeting requesting you to fill out an evaluation to attain your CME credits. Even if you do not wish to request CME please fill out the evaluation questions. Your feedback is critical to us to help identify topics and speakers of interest to you. In order to receive CME credits, evaluations must be completed.

If your preferred email address is not in your current SGS profile, please stop at the SGS registration desk during the meeting to update your email address. After the meeting email lennie@sgsonline.org to update your contact information.

Learning Objectives

At the conclusion of the meeting attendees should be able to:

1. Appreciate the benefits of working with other disciplines, and how to effect that change.
2. Create networks of relevant colleagues to benefit patients, including how to be a productive contributor.
3. Recognize and manage personal and institutional biases to create a diverse team.

Janet Pinkerton Dombrowski **Founder & President, JCD Advisors**

Janet Pinkerton Dombrowski is the Founder and President of JCD Advisors which has been supporting C-suite executives and physician leaders in becoming more intentional about their leadership since 2008. She and her team work exclusively in healthcare, building on their knowledge as former healthcare executives. Ms.

Dombrowski was previously a senior strategy leader in both large health systems and consulting companies and began her healthcare career as a pediatric nurse. She lives in Ann Arbor Michigan with her 4 teenagers and is an alumnus of the University of Michigan.

Janet Pinkerton Dombrowski spent nearly 20 years as a senior strategy leader in various consulting organizations and large health systems, after an early career in health care delivery and operations. Building on her skills at creating synergy and ensuring alignment in projects and processes, she chose to do the same for individuals and teams through organizational development consulting and executive coaching. She founded JCD Advisors in 2008.

Today, Ms. Dombrowski and her team of senior coaches focus exclusively in health care, supporting C-suite executives and physician leaders in becoming more intentional about their leadership presence, their creation of highly functioning teams, and the importance of aligning in strategy, structure, and culture for optimal performance. JCD Advisors serves senior leaders and their teams across the US in academic medical centers, national faith-based health systems, regional integrated delivery systems, and community hospitals and health centers.

Ms. Dombrowski received her Master in Health Services Administration from the University of Michigan, where she is an emeritus member of the Alumni Board and an adjunct faculty member. She also received her Bachelor of Science in Nursing from the University of Michigan.

Christine A. Heisler, MD, MS

Assistant Professor at the University of Wisconsin School of Medicine and Public Health

Ready, Set, ACTION!

Directions toward Gender Equity in Gynecologic Surgery

Christine A. Heisler, MD, MS, is an Assistant Professor at the University of Wisconsin School of Medicine and Public Health. She is board-certified in Obstetrics & Gynecology and Female Pelvic Medicine and Reconstructive Surgery (FPMRS), and holds dual appointments in Obstetrics & Gynecology and Urology. Dr. Heisler has direct professional experiences with gender bias, as well as having served as a resource for students, residents, colleagues and organizations. She has published multiple peer-reviewed articles and an international textbook chapter on gender equity. In addition, Dr. Heisler has received invitations to present her research at regional and national conferences. Her work on gender equity policies and statements in professional surgical societies was awarded the Association of Women Surgeons Best Diversity Paper in 2020. Committed to a diverse, equitable and inclusive workplace, Dr. Heisler continues to identify barriers and promote solutions for gender equity in surgery.

Dr. Heisler will present
"Ready, Set, ACTION! Directions toward
Gender Equity in Gynecologic Surgery"
on Tuesday, June 29 at 8:05 AM
