SOCIETY OF GYNECOLOGIC SURGEONS

MISSION STATEMENT

The Society of Gynecologic Surgeons' mission is to promote the highest standards for gynecologic surgical care for women in a safe, effective and ethical manner.

To realize this mission, the Society of Gynecologic Surgeons has as its principles:

1. *To promote the acquisition of knowledge and the improvement of skills in gynecologic surgery.*
2. *To enhance the understanding of gynecology and gynecologic surgery through basic and clinical research.*
3. *To be a source of public and professional information.*

IN MEMORIAM ***2007***

WELCOME FROM THE PRESIDENT

On behalf of the Society of Gynecologic surgeons, welcome to the 34th Annual Scientific Meeting. Andy Walter and his Program Committee have put together a wonderful schedule of events. There is a major emphasis on the use of mesh in prolapse surgery. We will hear multiple oral and video presentations on the topic. An entire scientific session is devoted exclusively to the complications of mesh in vaginal prolapse surgery. A half-day postgraduate course, "Meshes and grafts in reconstructive vaginal surgery" will be given the afternoon prior to the ASM. Importantly, the Systematic Review Group (SRG) will present its work and evidence-based clinical practice guidelines on its first annual topic, Mesh & Grafts in Vaginal Prolapse Surgery, in a panel presentation/discussion and at the postgraduate course.

Tom Julian has selected several superb films from an unusually large group of high quality videos which will be interspersed throughout the scientific sessions. Some of the other excellent videos will be shown in the 1st SGS Videofest. The academic roundtable breakfast discussions offer topics of interest for everyone facilitated by members particularly knowledgeable in that field. Hope you were able to get your top choices in early!

I am delighted that Dr. Norman Gant, Executive Director of the American Board of Obstetrics and Gynecology accepted our invitation to deliver the 2008 TeLinde Lecture entitled, "The Historical Evolution of Urogynecology."

The Society has placed new and prioritized emphasis on inclusiveness – we will do all we are able to facilitate any interested Gynecologist to both attend SGS meetings and apply for membership. The application process itself has become much more user-friendly and streamlined with the adoption of an online form. Non-oral posters for the first time are being allowed to fulfill the application requirement of presentation at an ASM.

The SGS is increasingly realizing its mission statement, "to promote the highest standards for gynecologic surgical care for women in a safe, effective and ethical manner" by actively promoting education and research. The research committee has established two major initiatives:

- The Systematic Review Group whose annual project is selecting a topic of importance, performing a systematic review of the world's literature and from this, creating evidence-based Clinical Practice Guidelines.
- The Fellows' Pelvic Research Network (FPRN) is a group of FPMRS fellows who perform multi-center pelvic floor research to improve collaboration and ability among fellows as they increase the fund of knowledge in female pelvic floor disorders.

Please enjoy yourselves here in Savannah. Be part of the golf and kayaking events, sample the town's famous cuisine, hang-out with old and new GYN friends and learn what's hot and what's not in pelvic surgery.

Best Regards,

CME INFORMATION

PROGRAM DIRECTOR - Andrew J. Walter, MD

TARGET AUDIENCE - Gynecologic Surgeons

PROGRAM GOAL

The goal of the annual scientific meeting is to provide member and non-member attendees with a forum for the latest and most innovative developments in gynecologic surgery. This will be accomplished through lecture, slide, video and poster presentations. Oral presentations are followed by a discussion and a question and answer session.

LEARNING OBJECTIVES

At the conclusion of the meeting attendees should be able to:

- 1) Employ an evidence-based approach to understanding the advantages and disadvantages of surgical and non-surgical procedures used in the treatment of gynecologic and urogynecologic disorders.
- 2) Understand the etiology and pathophysiology of pelvic floor dysfunction including urinary incontinence, fecal incontinence and pelvic organ prolapse.
- 3) Develop a comprehensive understanding of the risks and benefits of vaginal mesh kit procedures.
- 4) Describe methods of diagnosing and management of complications encountered in reconstructive pelvic surgery.
- 5) Develop a more detailed understanding of open, laparoscopic and robotic abdominal sacrocolpopexy.
- 6) Describe the cost / benefit ratio for the surgical management of advanced ovarian cancer.

Accreditation Statement

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the American College of Surgeons and the Society of Gynecologic Surgeons. The American College Surgeons is accredited by the ACCME to provide continuing medical education for physicians.

AMA PRA Category 1 Credits™

The American College of Surgeons designates this educational activity for a maximum of 23.5* *AMA PRA Category 1 Credits™*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

TELINDE LECTURER

NORMAN F. GANT, MD

Executive Director

American Board of Obstetrics and Gynecology

Dallas, Texas

Norman F. Gant, M.D. is the Executive Director of the American Board of Obstetrics and Gynecology and Chairman Emeritus of the Department of Obstetrics and Gynecology at the University of Texas Southwestern Medical Center at Dallas. He remains a Professor at the University of Texas Southwestern Medical School in Dallas.

Dr. Gant received a BA from the University of North Texas in 1962 and a MD degree from the University of Texas Southwestern Medical School in 1964. He completed a residency in obstetrics and gynecology at Parkland Memorial Hospital in Dallas, Texas, in 1968 then entered a reproductive physiology fellowship from 1968-1970 at the same institution. This was followed in 1972-1973 with additional postdoctoral training in reproductive endocrinology. He rose through the academic ranks to become the Professor and Chairman of the Department of Obstetrics and Gynecology at the University of Texas Southwestern Medical School in 1977.

Dr. Gant is a member of several honorary and academic societies including Alpha Omega Alpha. He is the Executive Director of the American Board of Obstetrics and Gynecology and served as a Director of the American Board of Family Practice. He is a member of the American College of Obstetricians and Gynecologists, the American Gynecological and Obstetrical Society, and is Past-President of the Society for Gynecologic Investigation. Dr. Gant received the Career Achievement Award of the Society of Maternal-Fetal Medicine, the Leon Chesley Award of the International Society for the Study of Hypertension In Pregnancy, and he is a member of the Royal College of Obstetricians and Gynaecologists (England) ad eundem. He was elected to the Institute of Medicine in October 2001.

Dr. Gant's research interests have centered around the study of the endocrinology of pregnancy and its relationship to the development of pregnancy-induced hypertension. Dr. Gant has authored numerous articles and scientific papers in this area and has received several awards for this work. He also has served for the past 20+ years as an author of the Williams Textbook of Obstetrics.

Dr. Gant will discuss "The Historical Evolution of Urogynecology" on Tuesday at 10:15 AM.

FELLOWS' PELVIC RESEARCH NETWORK (FPRN)

Riverscape Meeting Room – Second Floor - (Invitation Only)

SGS is sponsoring a multi-center research network for fellows, the ***Fellows' Pelvic Research Network (FPRN)***, a one and one half day workshop/planning meeting held immediately following the SGS meeting. The SGS Research Committee hosts the workshop. The aims of FPRN are to create an environment for fellows to participate in collaborative research and conduct multi-center studies as primary investigators. The FPRN meets biannually to develop new protocols for multi-center research and to discuss ongoing projects. The FPRN is run by fellows with scientific support and guidance provided by the SGS Research Committee. Study results will be submitted for presentation at an SGS annual meeting.
